

How to Install My SQL on a Windows Machine:

Step 1. <https://dev.mysql.com/downloads/installer/>

Windows (x86, 32-bit), MSI Installer (mysql-installer-community-8.0.22.0.msi)	8.0.22	405.2M	Download
			MD5: 4b90e669171b72247120b312a8c251c9 Signature

Step 2.

MySQL Community Downloads

Login Now or Sign Up for a free account.

An Oracle Web Account provides you with the following advantages:

- Fast access to MySQL software downloads
- Download technical White Papers and Presentations
- Post messages in the MySQL Discussion Forums
- Report and track bugs in the MySQL bug system

Sign Up »
for an Oracle Web account

MySQL.com is using Oracle SSO for authentication. If you already have an Oracle Web account, click the Login link. Otherwise, you can sign up for a free account by clicking the Sign Up link and following the instructions.

No thanks, just start my download.

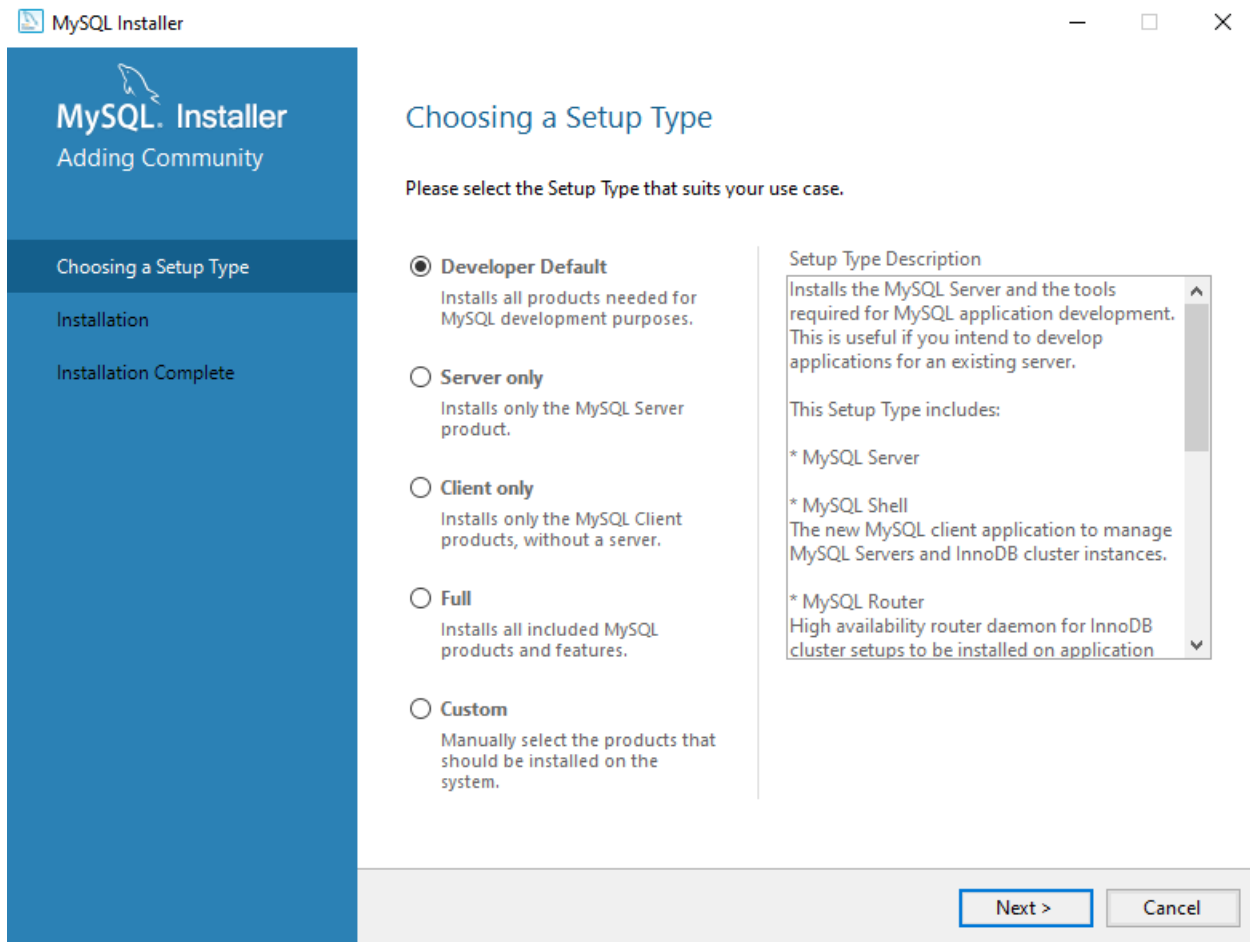

Step 3.

Run the file:

 mysql-installer-community-8.0.22.0	12/14/2020 7:10 PM	Windows Installer ...	414,916 KB
--	--------------------	-----------------------	------------

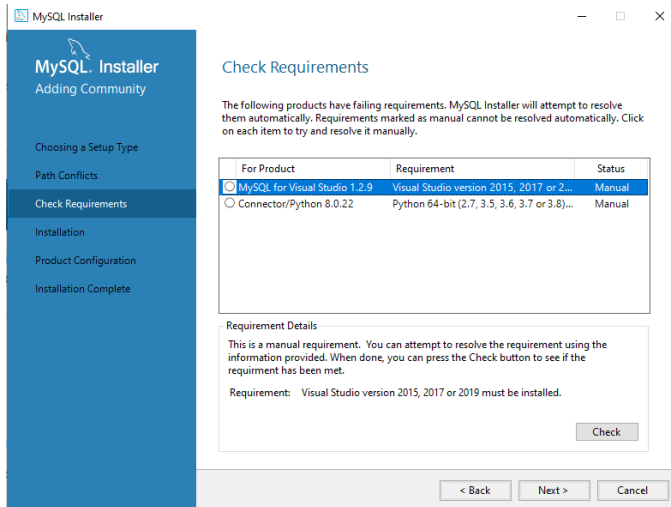

Step 4.

Select DEVELOPER DEFAULT:

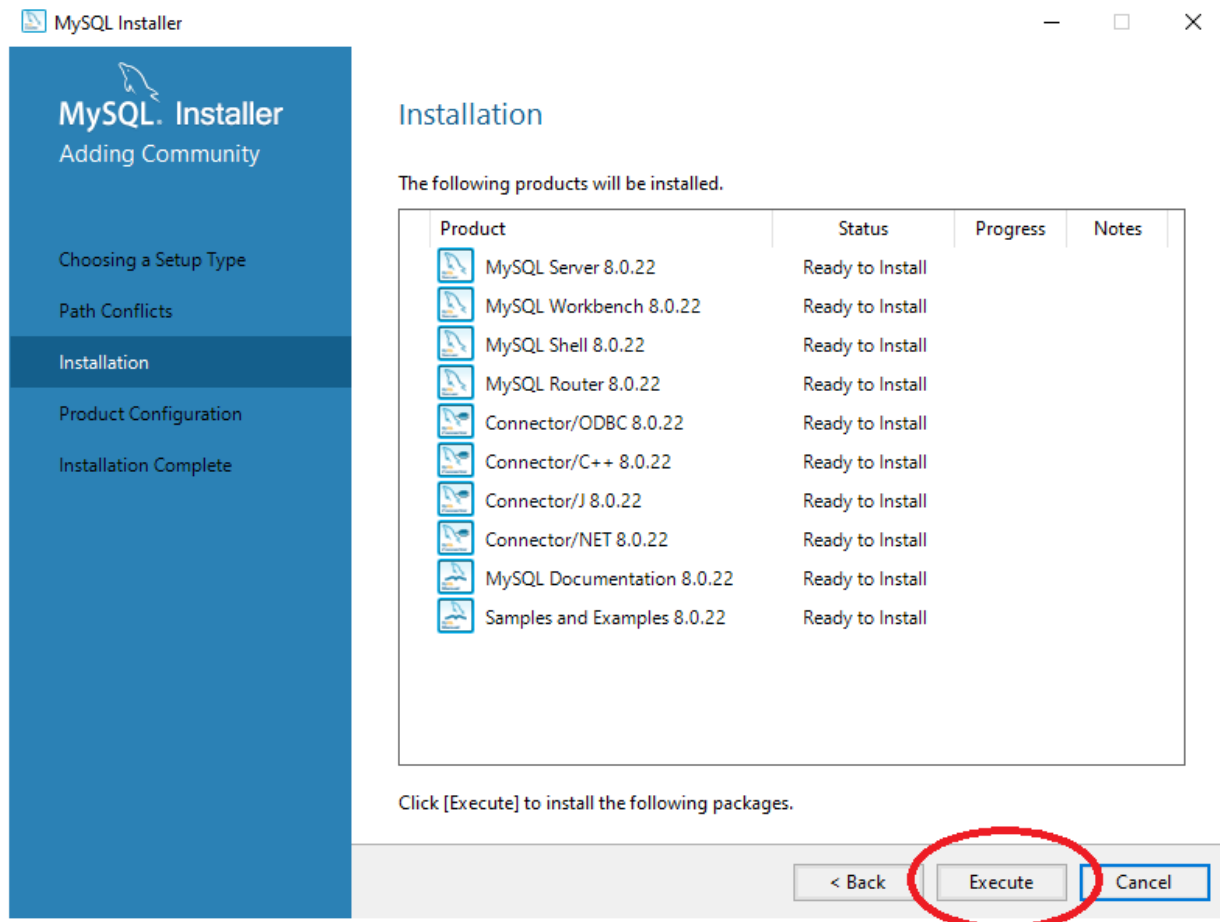

Step 5.

If you have the following requirements failing, it's OK, you can press NEXT regardless. We don't need these:

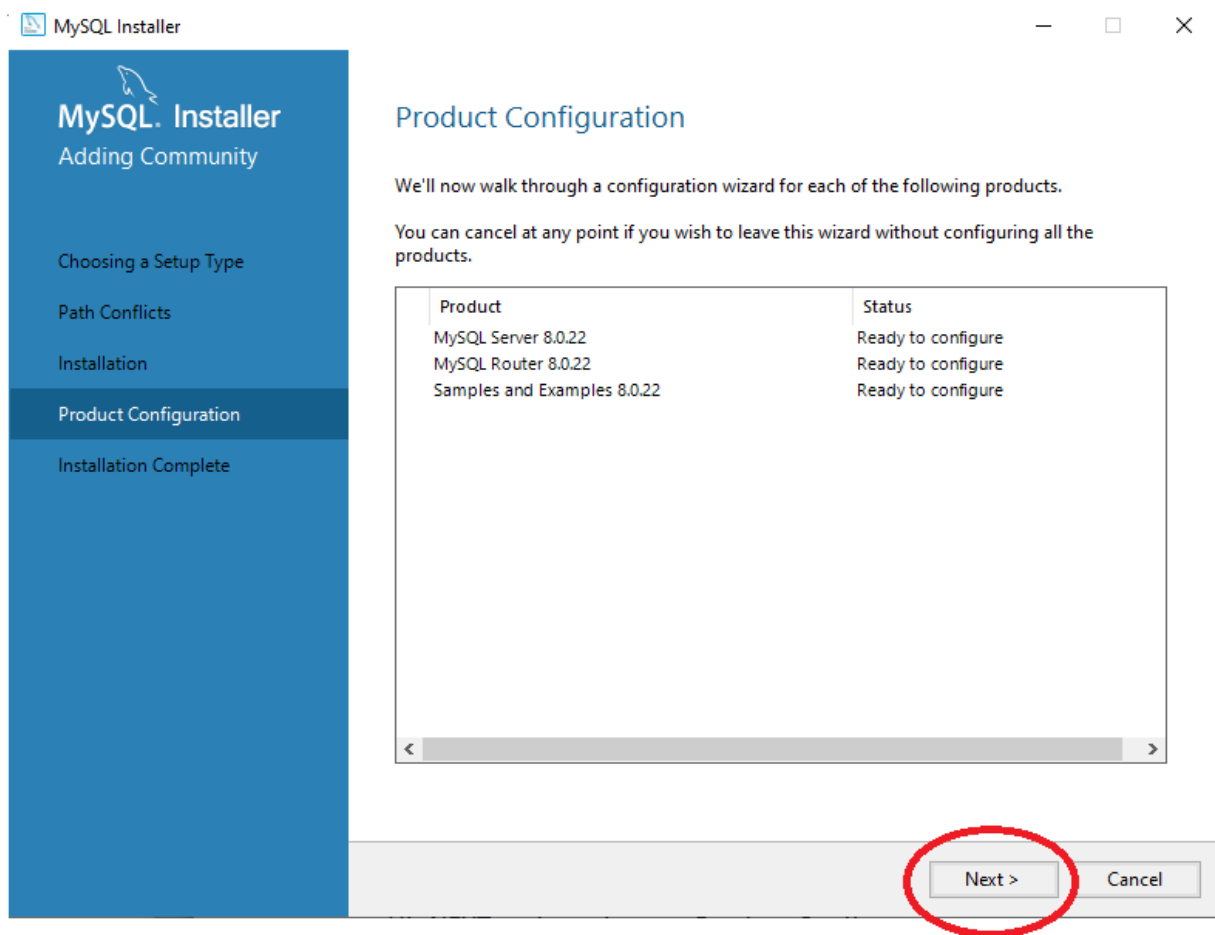

Step 6.

Select EXECUTE to install the software:

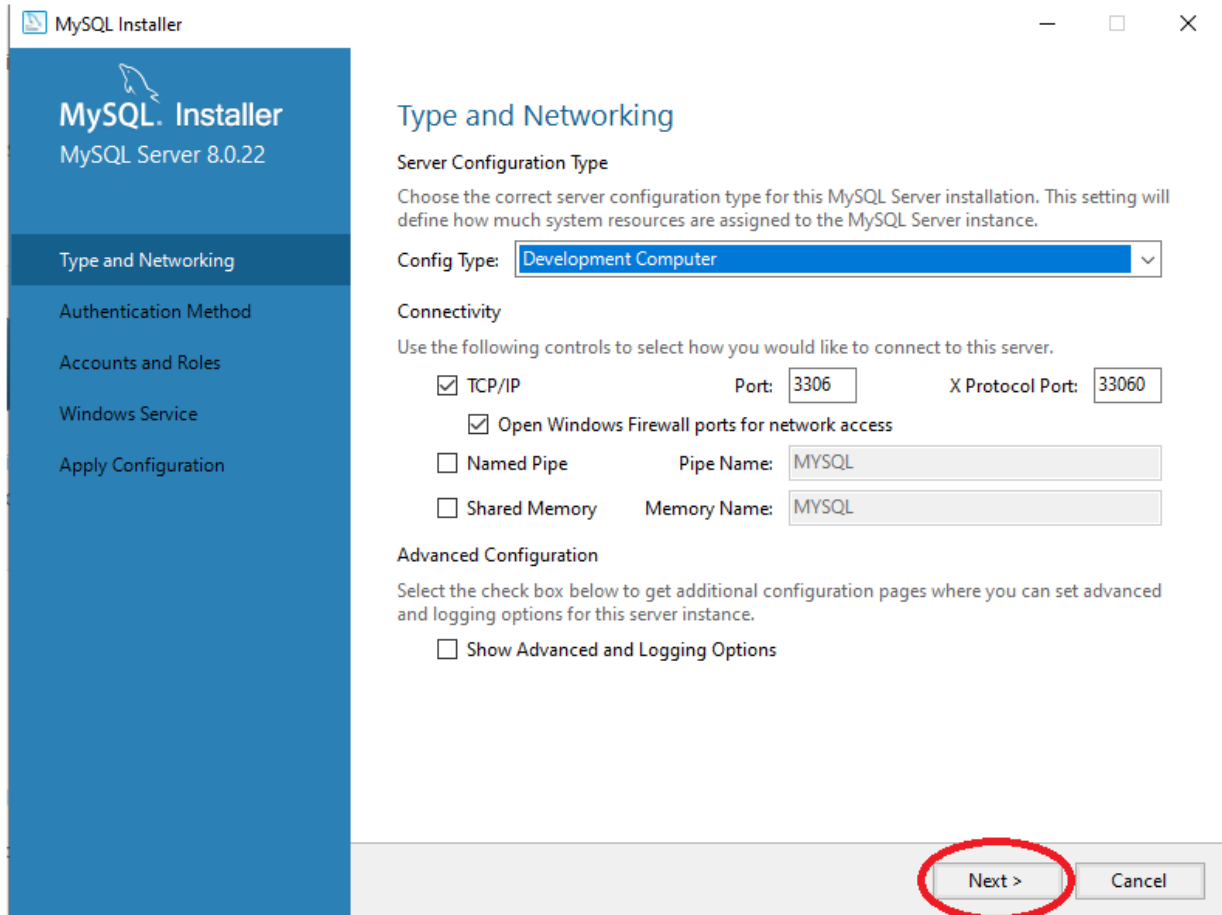

Step 7.

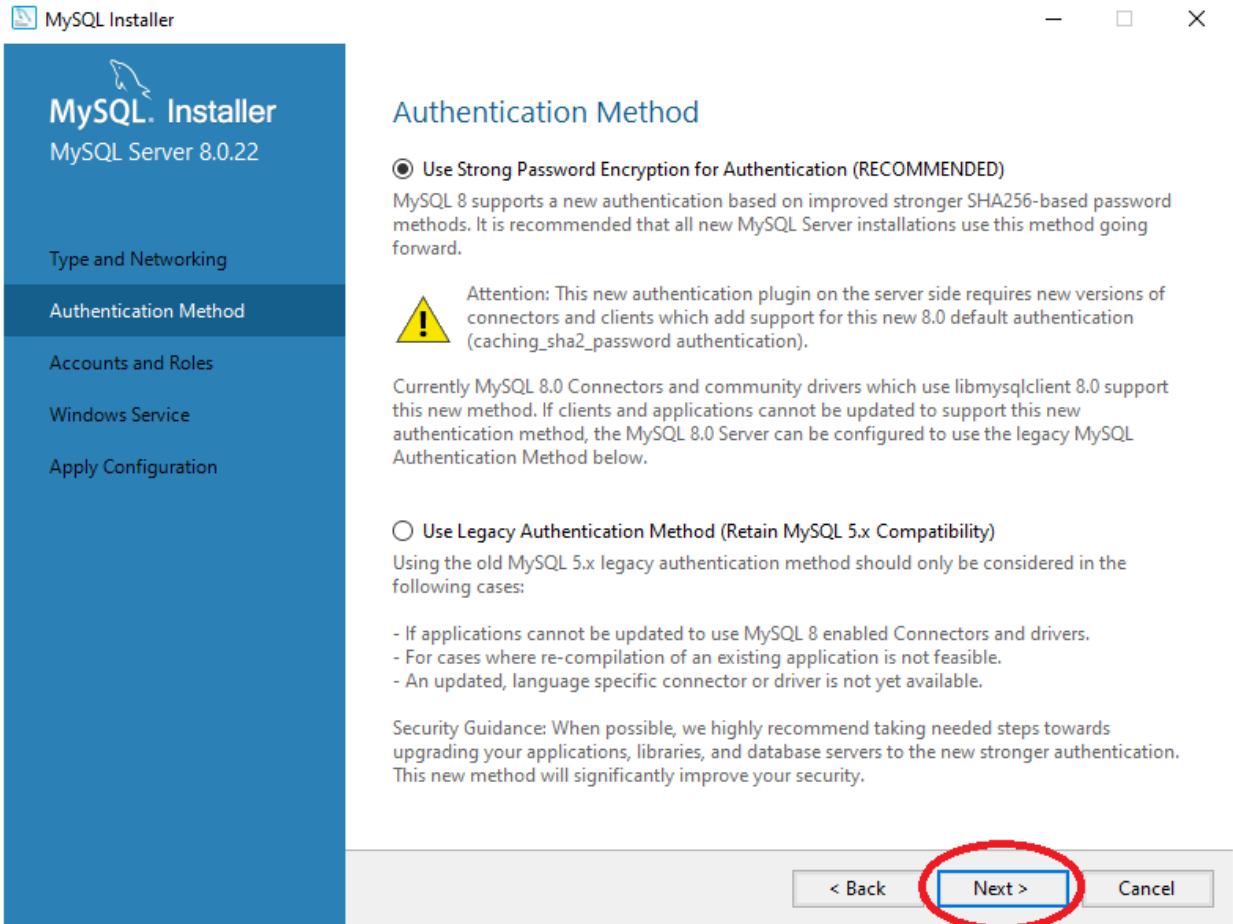

Hit NEXT and continue to Product Configuration:

Step 8.

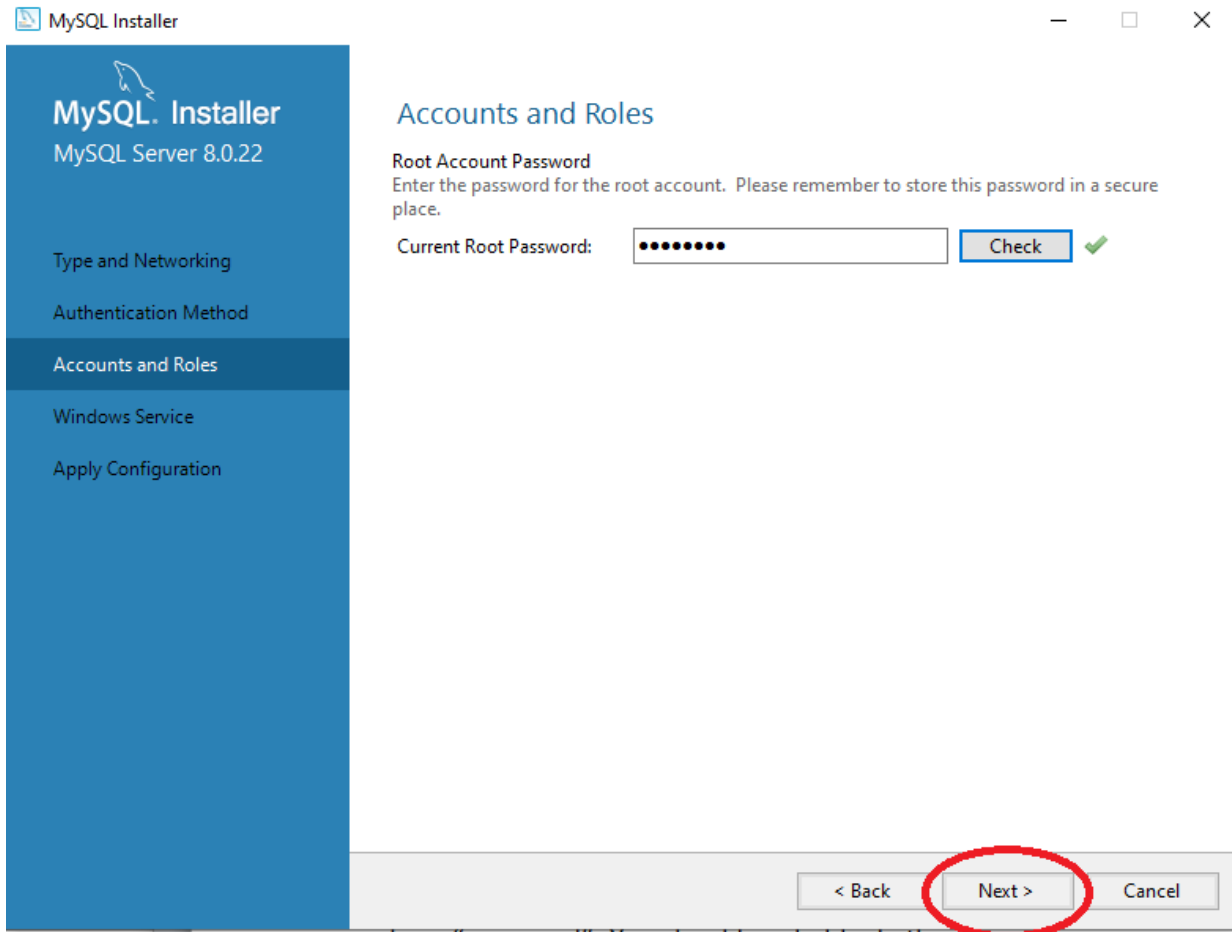

Step 9.

Step 10.

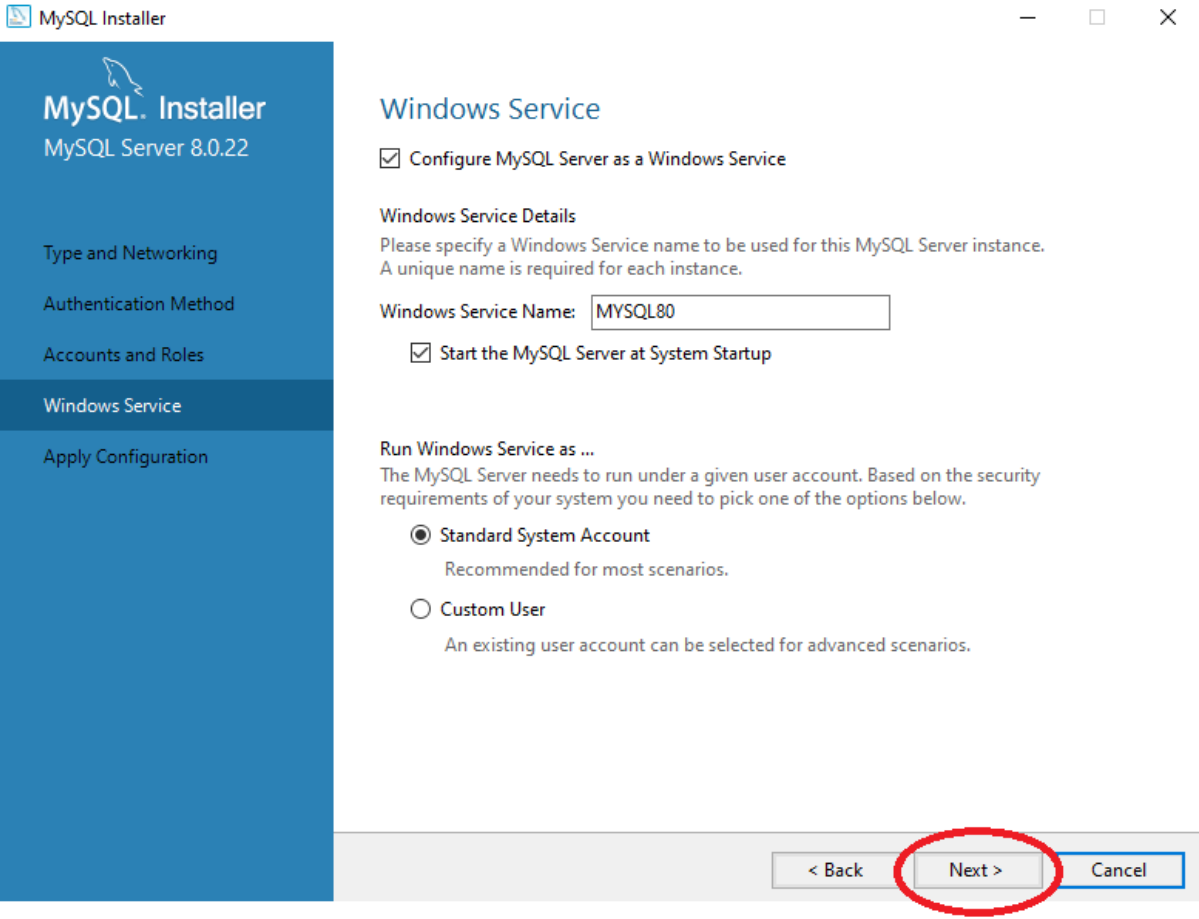

For setting your password I suggest using a very simple easy to remember password. It is EXTREMELY difficult to change this password, even deleting and reinstalling MySQL will not work!

I use "password". You should probably do the same.

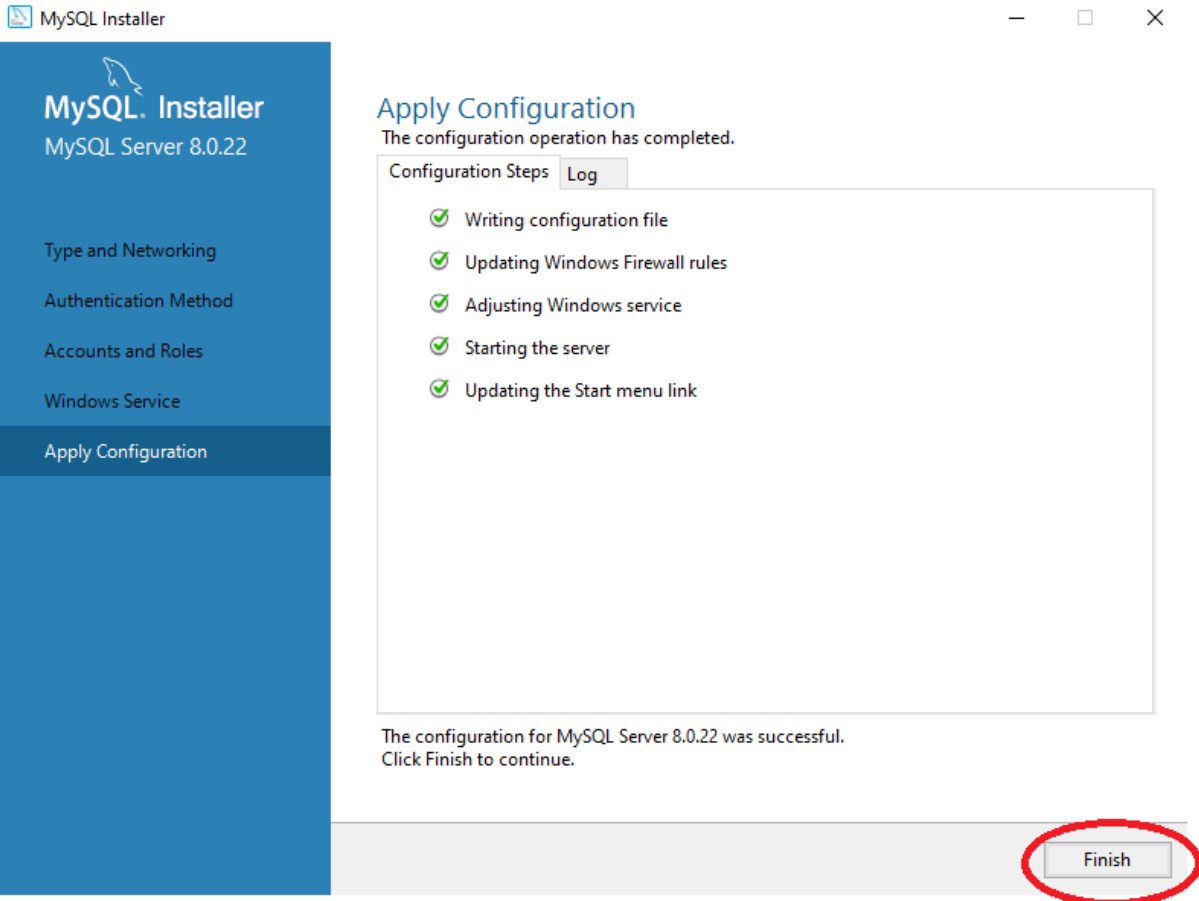

Step 11.

Use these settings:

Step 12.

Hit EXECUTE and then FINISH:

Step 13.

MySQL. Installer

Adding Community

Choosing a Setup Type

Path Conflicts

Installation

Product Configuration

Installation Complete

Product Configuration

We'll now walk through a configuration wizard for each of the following products.

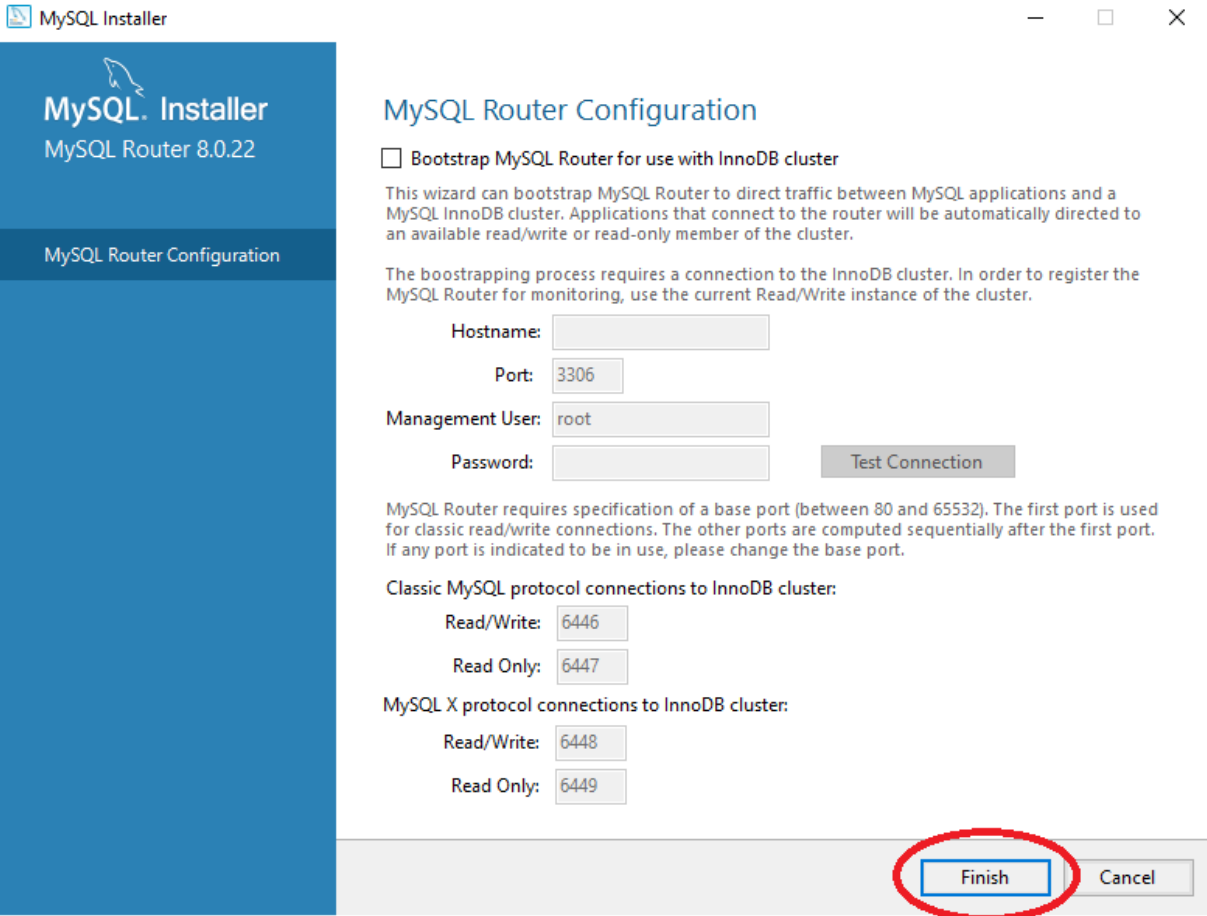

You can cancel at any point if you wish to leave this wizard without configuring all the products.

Product	Status
MySQL Server 8.0.22	Configuration complete.
MySQL Router 8.0.22	Ready to configure
Samples and Examples 8.0.22	Ready to configure

Next >

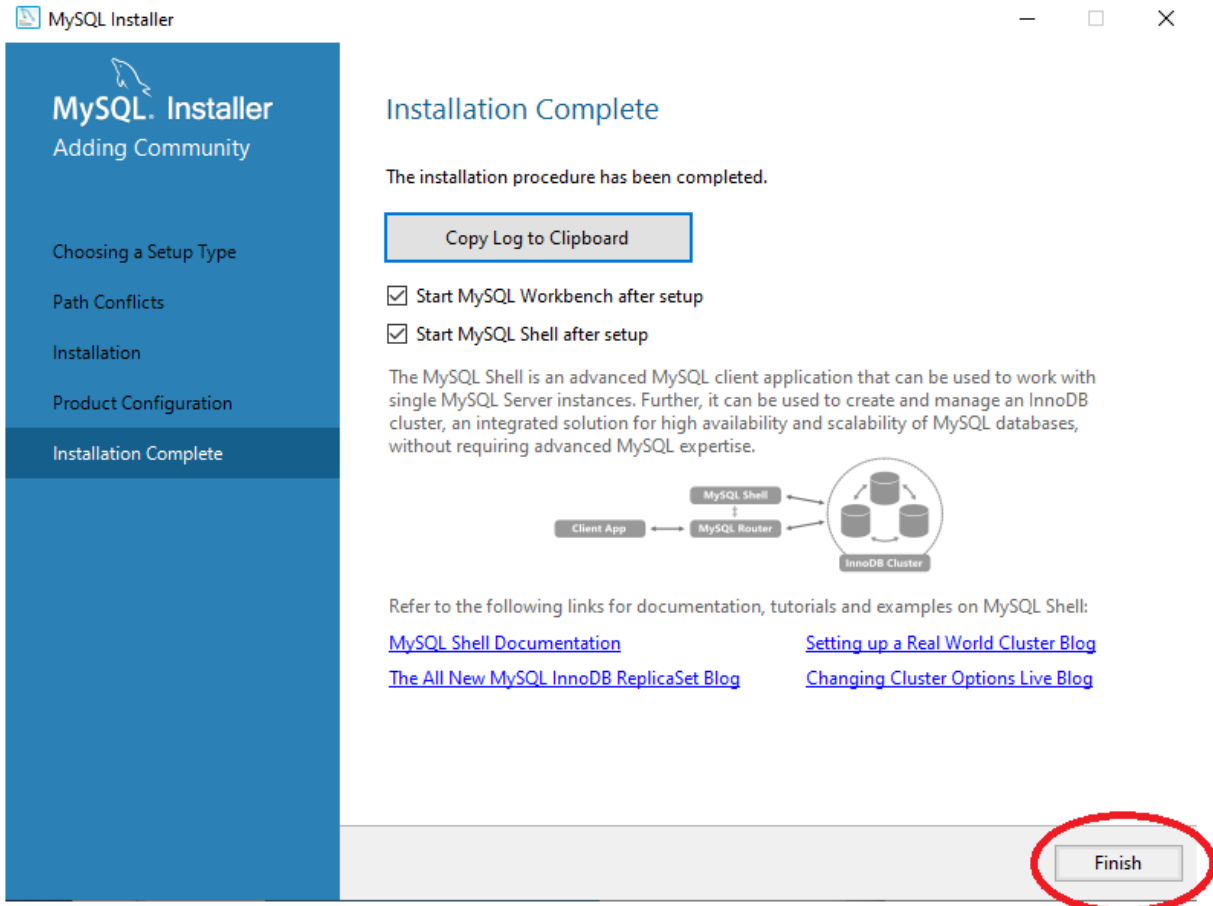

Cancel

Step 14.

Step 15.

Keep pressing NEXT on the configuration screens until everything is configured. Remember to enter your password when necessary. After all configurations are complete you will see the INSTALLATION COMPLETE screen. Press FINISH.

Step 16.

Launch MySQL Workbench.

Open Local Instance MySQL80 (if it's not there you will need to create one).

MySQL Connections

Local instance MySQL80

 root

 localhost:3306
